(54) LIGHT-EMITTING DEVICE AND DISPLAY DEVICE

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a light-emitting device with high luminous efficiency, high durability, and high brightness over a long time.
SOLUTION: This light-emitting device has at least one organic compound layer between a pair of electrodes, and has at least one layer of an organic compound in which the content of impurities is 1.0 mass% or less.

LEGAL STATUS

[Date of request for examination]

[Date of sending the examiner's decision of rejection]

[Kind of final disposal of application other than the examiner's decision of rejection or application converted registration]

[Date of final disposal for application]

[Patent number]

[Date of registration]

[Number of appeal against examiner's decision of rejection]

[Date of requesting appeal against examiner's decision of rejection]

[Date of extinction of right]
